

IVO SOKOLOSKI

I am a student of Computer Science and Engineering with strong motivation for learning and creating practical solutions. I have a solid foundation in C++, Java, Spring Boot, Spring MVC, Spring Security, working with PostgreSQL, HTML, CSS, JavaScript, Vanilla JS, Fetch API, jQuery, anime.js, WordPress, C#, Bash, and .NET MVC, which I actively use to solve tasks and projects during my studies. All my tasks and projects are available on my GitHub profile, where I document my learning. I approach every new technology with genuine curiosity and dedication. Although I have not yet specialized in a specific area, I am open to discussions and exploring different domains within computer science. I am interested in professional development and focus on building a broad and strong skill set that will enable me to make a meaningful contribution to the technology industry.

TECHNICAL SKILLS

Programming:

C++, Java, C#, JavaScript, Bash, Python

Web Technologies:

HTML, CSS, .NET MVC, Vanilla JS, Fetch API, jQuery, anime.js, WordPress

Backend & Frameworks:

Spring Boot, Spring MVC, Spring Security, ASP.NET MVC

Databases:

PostgreSQL, Local DB / SQL

Tools & IDEs:

Visual Studio, IntelliJ, CLion, WebStorm, Git, Jupyter Notebook, Pandas, NumPy

EDUCATION

Faculty of Computer Science and Engineering (FINKI)

- **Major:** Applied Information Technology (AIT)
- **Year of Study:** Third Year

SKILLS

- Adaptability and teamwork
- Commitment and responsibility toward tasks
- Desire for continuous learning and improvement

PROJECTS

- **CarsApp** — Spring Boot application with MVC architecture, PostgreSQL database, authentication and authorization with Spring Security, and email verification. <https://github.com/ivosokoloski/CarsApp>
- **Vaccination App** — Mini ASP.NET MVC project <https://github.com/ivosokoloski/VaccinationApp>
- **Personal Website** — Portfolio built with HTML, CSS, and JavaScript. <https://github.com/ivosokoloski/PersonalPage>
- **MyCocktailsApp** — Web application for searching cocktails using a free API, AJAX, HTML, CSS, and JavaScript. <https://github.com/ivosokoloski/CocktailsApp>
- **WordPress Project** — Website created with WordPress. <https://github.com/ivosokoloski/wordpressApp>
- **Various Academic Tasks and Projects** — A series of tasks and projects completed during studies, covering topics such as algorithms, object-oriented programming, advanced programming, databases, data science, and web development.

LANGUAGES

- Macedonian (native)
- English (basic proficiency)
